Hunt Update

Safety Zone

Hunt has a website dedicated to keeping you and your family safe, healthy and accident free. With monthly tips and advice, we take you safely through the year, month by month. Please check it often. We'll be adding new content throughout the year.

Back to School Safety

Are you in a "back to school" state of mind? Even if you don't have kids in school, be extra cautious of back to school traffic. Kids are not small adults and are less cautious and more impulsive, so give them plenty of room and proceed slowly around walkers and bike riders. Be aware of kids who may dart across the street to catch the school bus or those crossing streets without paying attention to traffic. Exercise caution around school buses. Stop when the lights are flashing and proceed slowly when it is safe to do so. Watch for stragglers. Ensure your child takes the same safe route to school every day and that you know who travels with him/her. Remind them to pay attention to crossing guards and other adults directing traffic flow. Walk with them occasionally. There's nothing like the possibility of a "check ride" to keep everyone paying attention!
